DELTA ENGINEERING OPEN HOUSE 2023:

PRODUCT DEMONSTRATION AREA

Visit the exclusive product demonstration area. This dedicated space will showcase the latest most innovative end-user products, allowing you to experience their features and benefits firsthand.

ISBM COSMETIC PRODUCTS

Innovative packaging solutions produced with double injection technology such as airless dispensers, glass-like cosmetic containers and bi-colour or bi-material containers.

ISBM HDPE PRODUCTS

HDPE bottles produced on ISBM single stage are ideal for a wide range of industries, including agrochemical, household products and personal care. The ISBM single stage equipment combines the injection moulding and stretch blow moulding processes into a single operation, resulting in a streamlined and efficient manufacturing process that allows to produce HDPE bottles with remarkable precision and consistency.

ISBM STANDARD RANGE

12 L Bag-In-Box water dispenser bottle – the ultimate solution for convenient and eco-friendly water dispensing for home and office.

EBM

Find out how extrusion blow moulding can solve your packaging problem – check out the wide range of samples, from medical vials to large technical products.

EVOLVE PLASMA COATING ON PET, CARBON COATING FOR FOOD APPLICATIONS

Plasma coating designed to address the needs of oxygen-sensitive products, ensuring their integrity and prolonging their shelf life. Ideal for sauces and ketchups as replacement for multilayer and scavenging materials as well as glass and metal replacements.

EVOLVE PLASMA COATING ON HDPE, SOLVENT BARRIER

Revolutionizing containment with HDPE plasma coated drums: Your ultimate solvent barrier solution, now PFAS-free!

EVOLVE PLASMA COATING ON 220 L DRUMS

Unleash the power of protection: Plasma-coated HDPE 220 L Drums, setting the standard!

B2T BOTTLE-TO-TUBE

Revolutionize, Recycle, Reimagine: Unleash the power of bottle-to-tube and slash plastic waste by 30%!

IN-LINE TOP LOAD MEASUREMENT

Empower your precision, compare live! From in-line top load measurement to high-voltage leak testing, height measurement, and pressure decay testing, we've got you covered!

CARDBOARD PALLETS

Cardboard pallets: Uncover the new era! From Featherweight to Herculean, Water-Repellent and Rackable!
